DIALOG FINANCE PLC

Notes to the condensed interim financial statements

(all amounts in the notes are in Sri Lanka Rupees thousands unless otherwise stated)

1 Basis of preparation

The condensed interim financial statements for the six months ended 30 June 2020 of the Company have been prepared in accordance with Sri Lanka Accounting Standard LKAS 34, 'Interim Financial Reporting'. The condensed interim financial statements should be read in conjunction with the audited financial statements for the nine months ended 31 December 2019.

There were no changes to the accounting policies since the publication of the audited financial statements for the nine months ended 31 December 2019.

2 Change of financial year end

The Company has changed its balance sheet date from 31 March to 31 December with effect from 31 December 2019, in order to align balance sheet date of the Company with that of its holding company, Dialog Axiata PLC.

3 Events after the reporting period

No material events occurred after the balance sheet date that require adjustments to or disclosure in the financial statements other than those disclosed in note 5.

4 Significant unusual events or transactions affecting assets, liabilities, equity, net income or cash flows

COVID-19 pandemic has resulted in a substantive shift in management's focus towards ensuring the continued safety of people, uninterrupted services to customers, compliance with guidelines issued by various government authorities and continuity of critical business operations in line with our re-assessed business continuity plan.

The outbreak and the associated developments impacted the business, our customers and staff due to restrictions on movement and economic slowdown. The Company remains committed to support the personal and corporate customers, in accordance with the relief measures in the form of debt moratoriums, published by the Central Bank of Sri Lanka ('CBSL') to assist businesses and individuals affected by COVID-19.

With the easing of strict lockdown measures starting mid-May, business activity has resumed across the country. The Company has adhered to the guidelines and directions issued by the Government and CBSL, when providing financial support and relief to sectors of the economy impacted by the pandemic. The aforesaid relief measures have an adverse impact on the earnings and liquidity position of the Company. The weakened economic environment has adversely affected the expected credit losses on loans and advances resulting in higher provisions for impairment.

The current unprecedented situation is yet evolving and the future impact will heavily depend on the complete removal of restrictions and time taken for economic activity to rebound to pre COVID-19 levels. The Company has resorted to aggressive cost rescaling and rationalisation initiatives both in operating and capital expenditure to soften the impact on the business.

Accordingly, the Company does not consider it practical to provide a quantitative estimate of the potential impact in the current context.

5 Contingent liabilities

There were no material contingent liabilities as at the reporting date which require adjustments to / or disclosures in the financial statements.

6 Rights issue

During the period, the Company has issued 17,446,388 shares by way of a Rights Issue in the proportion of seventeen (17) new shares for eighty-nine (89) existing shares held in the capital of the Company. The shares were listed on 3 June 2020. The Company raised Rs. 701,344,798 from the Rights Issue and increased the Stated Capital of the Company from Rs.1,673,164,542 representing 91,336,974 shares to Rs. 2,374,509,340 representing 108,783,362 shares.

DIALOG FINANCE PLC

Notes to the condensed interim financial statements (Continued)

7 Fair value of financial instruments

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

	Measurement criteria and the fair value					
	Level 1		Level 3		Total	
	30 Jun 2020	31 Dec 2019	30 Jun 2020	31 Dec 2019	30 Jun 2020	31 Dec 2019
